Data Synchronization in Terminal

The screenshot displays the TimeTrac 3.0 software interface, specifically the Terminal configuration page. The top navigation bar includes 'System', 'HRM', 'Attendance', 'Terminal', and 'Reports'. The 'Terminal' tab is active, showing a list of devices on the left with 'F18' selected. The main configuration area is divided into 'Connection Info' and 'Terminal Info' sections. The 'Connection Info' section includes fields for 'Terminal Type' (Linux), 'Status' (Enable), 'Connection Mode' (TCP/IP), 'Name' (F18), 'IP Address' (192.168.10.201), 'SN' (5830403130494), 'Port' (4370), 'Terminal Zone' (zone1), and 'Record Setting' (Merge). The 'Terminal Info' section includes fields for 'Terminal Type' (F18), 'Algorithm Version' (10), 'Date Format' (YY-MM-DD), 'Coreboard Type' (ZEM760_TFT), 'Admins' (0), 'Users' (0), 'FP templates' (0), 'Face templates' (0), and 'Records' (0). A 'Test Connection' button is located at the bottom right of the 'Connection Info' section. The bottom status bar shows 'Records: 1', 'WDMS DataSync Status', and 'Login User:Nexus'.

3

- All-in-one device management
- Zone-based terminal control
- Data synchronization with terminal

Multiple Reports Regeneration

The screenshot displays the TimeTrac 3.0 Reports interface. The top navigation bar includes 'TimeTrac 3.0', 'System', 'HRM', 'Attendance', 'Terminal', and 'Reports'. The 'Reports' tab is active. Below the navigation bar, there are icons for 'Records', 'Calculate', and 'Report'. The 'Report' icon is highlighted. The main area shows a date range from '05/27/2015' to '05/27/2015' and a filter set to 'Employees'. A grid of report icons is displayed, including: Employee, Employee Information, Transactions, Daily Total, TimeCard, Total TimeCard, Early Out, Late Arrival, Absence, Employee Shift, Exception, Hours Summary, TimeCard List, Attendance Card, Daily Attendance, Monthly Summary, and Flexible Schedule. The bottom status bar shows 'WDMS DataSync Status' with a warning icon and 'Login User:Nexus'.

4

- Different types of reports are available
- Include special reports such as absence and early out
- Support data export to different file formats
